**DINWIDDIE COUNTY HEALTH DEPARTMENT MOVES TO NEW PERMANENT LOCATION
ON BOYDTON PLANK RD.**

-Offices will have limited services on Friday, June 1; will reopen Monday, June 4-

(PETERSBURG, Va.) – The Dinwiddie County Health Department is moving from its present location at 18712 Carson Rd. in Dinwiddie to a permanent location at 14006 Boydton Plank Rd. in Dinwiddie. The new location will open on Monday, June 4.

No services will be available at the Carson Rd. location on Friday, June 1. Local health department staff will be available at the new location to assist citizens with limited services. Telephone service will remain in effect during this transition.

In March of 2012 the Dinwiddie County Health Department moved to Carson Rd. temporarily, and has offered services there and at the Petersburg City Health Department on Halifax St. in Petersburg for the past two months.

“In March, we moved temporarily to Carson Rd. expecting to return to the Dinwiddie County local government campus on Boydton Plank Rd. in two to three months. Dinwiddie County local government officials have been very helpful through this process to assure ongoing public health services while considering improvements needed in the local public health facilities,” said Donald R. Stern, M.D., M.P.H., acting health director of the Crater Health District, which includes the Dinwiddie County Health Department. “We also appreciate the efforts of staff who assured continuation of public health services for Dinwiddie County residents. We are pleased now to consolidate our staff and services as we return to the Dinwiddie government campus on Boydton Plank Rd., right on schedule.”
